overy sixty days.

The bark Cambridge was expected to leave a week after the Montana, and will bring the following mail. She will take her piace to the Hawalian Packet line C. S. Bartow held a sale yesterday at the store of H. Hackfeld & Co. for the purpose of closing conent. Goods to arrive ex Wyllie were also Day Schools of this district will commence offered. Prices obtained show that our market is

The brig Kamehamela V is at band from the Sie sails again with supplies and Guano Islanda.

The brig Bloosens has been sold to Foster & Co. Vpastic vices Numerall.—A new national law goes into effect on and after July 1st, that every vessel registered, enrolled, or licensed, must be numbered, which anumber out be gut in the main-beam. The states or inseters must affer the official mark, the number to be pricaired at the Custom-house, at their own expense, and in intepeties certificate this it is properly and correctly done, must be presented before they can get their papers at the Custom-house.—N. B. Straderel.

A variet was given in New York in the case of the Continental flant against the Bank of the Commonwealth, in favor of the latter. It seems to establish the practipie that any bank is made liable if its paying teller pronounce a check or certification good even though the check or certification be a former, provided the holder of the check are upon the single ment of the paying teller, and thereby suffers low. Twenty six thousand cases, or 1,500,000 pairs of shoes were asip as from Lynn during April. The value of these alignments was reserved, 2000,000, and it was the largest month's business ever transacted at Lynn. The manufacturers are reported to be as busy as ever this menth in filling orders.—Boston

The Snancial letter of the Times, from New York,

"The cosan carrying frade continues in a dull and unsalisfactory condition, a fact due to our extremely faulty system of taxation, which is fast building a Chinese will around American products, that for-merly competed successfully with these of other nawards fertilizing American commerce; but unfortunately, of the sixty old steamers in the transitiantic service, not use to swened in this country. They are all under foreign flags, and though they carry freight cheap, they are understood to be making money. The old American sulling packets have nearly all bein farred out of the service, and in a year or two more these "old lines," once the pride and boast of old insechant marine, will be among the things that

The National Insurance Company, of San Fran cisco, give the following reasons for winding up their

similes:

if it is the sense of the Stockholders here assembled that the capital at present employed in the business of Insurance, on the Pacific Coast, is largely in excess of business requirements; that, in addition to the ordinary hazards of the fundamen, the rates of insurance now in vogue yield insulequate returns for the risks incurred; that the recent repeal of the Deposit Law furbids all hope of an early resimption of a healthy system of rates, while the "individual inhibits" imposed upon Stockholders by our State Conditation endangers our private means in case of Conditation endangers our private means in case of is It is the sense of the Stockholders here assembled that the capital at resemble

> on Monday' Aug. 3d, 1868. THE Assignees sale at auction of the retail stock of groceries, of S. Savidge, will be held

to-day at his store on Fort street.

On Saturday evening next, at the suction rooms of E. P. Adams, will be sold, a lot of Japanese goods, the best ever brought to this market. See advertisement

Supplex Draff. -On Friday last Mr. John Welsh died suddenly from hemorrhage. He has long been running down with disease of the lungs, but was able to be about his work up to the occurrence of the bleeding. The deceased was a native of Canada, but for many years has been attached to the household of Her Majesty Queen Emma, as a confidential and head servant. To this position he has shown such adaptation in manner and fidelity, as not only to secure the long continued favor of the Queen, but commend himself to the good opinion of the public as mys of the use of steam in freighting, and its rapid a man faithful to his calling. He was buried last Sunday afternoon, the Fire Department attending the funeral, he having been a member of "Mechanic", Engine Co., No. 2.

COURT NEWS .- On Monday, at 12 o'clock, at Iolani Palace, His Majesty received Rev. H. H. Parker, to accept at his hands the richly bound copy of the new Hawalian Bible, lately issued from the press of the American Bible Society. The inscription on the cover, in gilt letters, is:

HIS MAJESTY KAMEHAMEHA V, Presented by THE AMERICAN BIBLE SOCIETY,

New York, 1868. The book was accompanied by a dedicatory letter from the Committe of the Hawaiian Evangelical Board, to which His Majesty has been pleased to reply, in accepting this graceful gift of the Society.

SCPREME COURT, JULY TERM, 1868 - The Court has disposed of the following cases: Rex vs. Lonohiwa—Perjury. The prisoner akul for forgery. Verdict, guilty; sentenced to 8 years' imprisonment at hard labor. The Attorney-General for the Crown,

Mr. Kanihina for the prisoner. Bex vs. Keoki-House-breaking. Prisoner indicted for breaking and entering the store house of W. Sumner. Verdict, guilty; senteneed to 6 months' imprisonment at hard

The Attorney-General for the Crown. Mr. Thompson for the prisoner. Rex vs. Kususus-Murder. Prisoner indicted for the murder of Pasisso, at Kahaluu, off and ou, and thirty days only loading. Koolaupoko, Oahu, on the 19th of April, second degree; sentenced to 10 years' im-

prisonment at hard labor. The Attorney-General for the Crown. Mesers. Keawehunals and Mahelona for

Rex. vs. George W. Kinney-Embezziement. The prisoner was indicted for em-bezzlement of the schooner Nettie Merrill. Verdict guilty of an intent to embezzle, and recommended to the mercy of the Court. The Attorney-General for the Crown. Mr. Stauley for the prisoner.

MURDEROUS PRACTICE.-A great deal has been written, preached, and talked, about the evils resulting to the Hawalian race from the practices of the native Kahungs, or Doc tors, but the half has not been told; and the community generally are in utter ignorance of the magnitude of the evil, and the deadly results. Many years ago, it was doubtless true that the Kahunas-and the profession was then limited to certain families were possessed of considerable skill in the treatment of such simple disorders as were then found among the people, using as remedies the herbs and plants indigenous to the soil. But with the advent of the foreigner, and the complete revolution which followed in the social condition of the people, the old race of Kabunas disappeared, and with them the knowledge of the simples they used in practice. In their place has sprung up a set of most arrant charlatans, ignorant but cunning pretenders, who, taking advantage of the fin gering tendency to the old superstitions still existing among the people, are preying upon

their substance and destroying their livesthe latter at a fearful rate. One day last week, and old sinner named Kahaule was tried in the Police Court under the recently enacted statute "For the establishment of Hawaiian Board of Health," and fined ne hundred dollars for practicing medicine without a license. But the doubtful part of the case was, that after going through with some mummery over a baked pig and a bowl of awa, he administered to a little child two years old, a dose of some sort of liquid, which almost immediately produced spasms. He then proceeded to drench the child with cold water, and in a few minutes after the little one had taken the medicine, it was still in death, having only half an hour before been quite lively, seemingly troubled with merely a cough In default of paying the fine, the wretched old Kabupa was committed to prison to work it out. It is a pity that he could not have been punished for manslaughter, to which his offense in reality amounted.

FRESH MILK! FRESH MILK!

THE UNDERSIGNED, HAV—

Ing bought out the Stock and Business of Mrs. Johnstone, will continue to guistomers, promptly and regularly.

Our new establishment being connected with one of the most extensive cattle and dairy farms on this island, extra supplies of nilk can be furnished in any quantity, at short notice. Custom Respectfully Solicited.

34-4m:

Camada—

The Fifty-third Regiment has been ordered to leave London on the 15th, for Quebec.

BUFFALO, June 18th —Reports from Camada distributions of the region of the effect that the Fenians are concentrating at this point for a raid on the neighbering province, it is proper to contradict such statements. No unusual gathering of Fenians has occurred here, and it is not believed that there is a single member of the organization here, outside of the citizens of Buffalo. The sensational reports probably originated with Canadian speculators interested in contracts for supplying troops.

Roker's Island.

An Eastern newspaper some months since, in commenting upon the purchase of Alaska, put down one of the rocky islets off its conet as the most western limit of the territory of the United States. The paper was tory of the United States. The paper was in error.-that bit of barren worthless rock is thirty degress short, of other more valuable possessions, over which the American flag waves and on which American capital is being expended, to bring forth wealth, and add to the products of commerce Howland's Island in Long. 176.30 west, with Baker's 176.22 and other guano islands a little to the eastward of it are really the most western limit of the United States.

Baker's Island, under the management of the American Guano Company, is proving port regularly, during the past eighteen months. Depot on Fort Street for late papers by the itself, of no small importance to the world and its list of ships arriving and departing together with the men and means there employed to procure and distribute Its pro ducts make no small figure in ocean transportation. The frequent arrival here of ships, on their way to the island, chartered from the most distant ports, as well as near ones, the agency being established in Hono lulu, brings to our notice often the progress and development of the guano trade and the details of its management. Not long since, the Inanhor from Aden, touched here on her way to Baker's, having made the circuit of more than half the world, to get a cargo from an island not many years since, almost unknown and esteemed valueless. From the east and the west-ships are head ing for the island, to load with paying

The guano deposit on Baker's is being worked with great activity, a large amount being under contract for delivery in England. On the island itself are ten white persons, with one kundred Hawahans engaged in digging up the deposit and delivering it or board the vessels. It is found in a dry lagoon in the center of the island, whence in cars on a tram way about a mile, it is carried to the beach, and deposited for drying and shipment. A short wharf, runs out on the recf, where the guano is bagged, and carried to the scows which come as near as possible, through the surf, and it is then lightered off to the vessels.

The island is not in a rainless locality and the guano must in the winter season be dried, to rid it of an excess of moisture above 15 per cent. A close analysis is made of every lot ready for shipment, and the records of the work, show that the average does not exceed 13 per cent. The Chinche Island averages 16 per cent. The drying is perhaps one of the most expensive parts of procuring the guano. To supply these men on Baker's, for there is neither food or fresh water on the island, the brig Kamehameha F runs regularly with supplies from Honolulu

making five round trips for the year. The arrival of the brig last Thursday, puts us in possession of a report of the shipments up to May 28th and the experience of the four or five vessels, which left here for Baker's, during the spring months. The clippers King Fisher and Wm. Wilcox had arrived before the departure of the brig, the was indicted for perjury committed in the Scioto left here June 30th, and four other Supreme Court, last term in the trial of Ke- ships are en route from other parts of the world for curgoes. The Nor Wester is loading at McKean's; with the El Derade shortly

The Kamehameha V., brings a most favor able report of the ships loading there-and the experience of the Lock-na-Garr, with that of those which followed, shows that the seasons must be regarded. The ship arrived at Baker's about the middle of January, but at Baker's about the middle of January, but at Baker's about the middle of January, but was not able to get her cargo on board and leave until April 23d. Of these three months detention-sixty days were spent in laying

1868. Pleaded guilty of manslanghter in the Prince, which arrived from March 20th to April 28th met with no detention from weather, but completed their eargoes in Ladies Hoop Skirts. turn, as fast as the facilities for loading permitted.

The report shows that 4,000 tons of guano were shipped from the island from April 23d to May 28th. The Loch-na-Garr took 1,910 tons; the Wilhelm 430 tons, put on board in six days; the Hattie G. Hall, 760 tons in seven days, and the Jennie Prince, 1500 tons in cleven days. The dispatch used in getting these cargoes on board, speaks well for the energy and system of those in charge of the

renergy and system of those in charge of the island.

In the winter months, despite the well laid moorings, and the vigilance of ship masters, accident may occur to shipping laying there, but the danger is not so great, as the loss of time incurred from the necessity of slipping, to lay off and on, or the violence of the surf in preventing the work of londing. All the accidents and delays, which have occurred are embraced in the stormy months, while from March to November neither the sea nor the winds offer any obstacles to speedy cargo.

With regard to the safety of londing, we

With regard to the safety of loading, we clip the following card from a Liverpool

clip the following card from a Liverpool paper:

C. S. Marshall, President of the American Guano Company, New York.

Dear Sir:—We, the undersigned shipmasters, having recently made successful voyages to Haker's Island, would state, for the benefit of shipowners who are mutually interested in the success of your enterprise, that ships are not required to expand a shilling at the island, and that for ships properly officered and manned and fitted with the customary and lawful tackle there is, in our opinion, no special cause for casualties at the island, in proof of which we are quite willing to return there whenever occasion requires. Respectfully yours,

John Thranks, Master Ship Ivanhoe,

J. N. BROWN, Master Ship Konilworth,
Davin Gauptrius, Master Bark Garstang,
W. D. Laws, Master Ship Sea Chief.

A. N. Duxman,

Late Master Ship Josiah Bradlee,

Having been at Baker's Island and seen

Having been at Baker's Island and seen the accommodation for loading ships, as well as my experience in those latitudes as a shipmaster, I am able to corroborate the above statement of Captains Theorie, Brown, Griffiths, Laws, and Dunbar.
